SODIUM METABISULPHITE
CAMPDEN TABLET EQUIVALENT

This recipe produces enough 10% (weight for weight) SMS solution for a 600ml. plastic bottle.

- Place 60g. of sodium metabisulphate powder/crystals into a 600ml container with approx 300ml of warm water.
- Shake until dissolved.
- Top up with cool clean water to 600ml.

**1 teaspoon (5ml.) of this solution equates to
1 Campden tablet for dosing wine.**

**PLEASE STORE THIS SOLUTION IN A SAFE PLACE AWAY FROM
CHILDREN AND SECURELY CAPPED - IT IS CAUSTIC AND CAN
CAUSE BREATHING DIFFICULTIES**
